CHECKLIST FOR REMOTE WORKERS / DIGITAL NOMADS

You may fall in love with a town or city but it needs to be suitable for working remotely. Use this checklist to help you decide

- What's the wifi like? Is it fast enough to cope with my work (and streaming boxsets after work!)?
- What does the wifi cost or is it included in the rent?
- Does my potential home have a desk, tabletop, or other space I can work from?
- Are there coworking spaces or bars with good coffee and good internet I can use nearby? (Some people prefer to work in a shared space but it's handy to check it out in case the internet goes down)
- What is the best area to live and work in?
- Are there good restaurants and supermarkets nearby?
- Is it easy to travel there from the airport?
- Have other digital nomads or remote workers shared their reviews for working from there?
